

PETROL INJECTION COMPONENTS TR5-6

Parts Required to Convert a Non Petrol Injected TR5/TR250/TR6 to Petrol Injection (P.I.)

NOTE 1:

This sheet presupposes that the vehicle has never had P.I. If the car was originally P.I. some items such as fuel runs and petrol tank may not be required.

NOTE 2:

Any 6 cylinder Triumph can be made to run on P.I., however the metering unit (MU) will require calibration if the cam, cylinder head, and exhaust are non-standard.

NOTE 3:

Part numbers and descriptions are those appropriate to a CP TR6 unless otherwise stated. If CR TR6 or 2.5 P.I. manifolds for instance are to be used, or TR5 petrol line runs are required, there will be specific part number changes - please phone to discuss.

NOTE 4:

Only certain cylinder heads will accept injection manifolds. Early TR6 carb and TR250 are not acceptable.

NOTE 5:

We cannot guarantee the availability of parts, either new or second-hand at any given time; therefore new parts may have to be substituted for second-hand and vice versa as appropriate.

NOTE 6:

Revington TR can fit all the equipment at their premises. As a guide approximately 40 hours is required to fit and set up the equipment. Labour rate £please enquire.

THE FOLLOWING LIST COVERS MOST PARTS REQUIRED: -

QTY	PART NUMBER	DESCRIPTION
1	308396	Pedestal supporting metering unit
2	145720	Seals in pedestal
1	AJM682	Manifold gasket
3	152807	Manifold CP (with S/H spindle etc)
	OR	
3	308292	Manifold CR (with S/H spindle etc)
6	152601	Hose to air manifold
4	GHC1217	Clip to air manifold
1	216374	Air manifold
1	214840	Air manifold stay
1	149693	Hose to air filter
1	149306	Air cleaner support
1	308444SS	Air cleaner assy (new are stainless steel)
1	GFE1048	Air cleaner
1	312529	Metering unit (MU) CP
	OR	
1	312529EX	MU exchange
1	UKC351SET	Injector pipes set plastic, set of 6
	OR	
1	RTR4107	Stainless steel injector pipes set of 6
2	518630	Banjo bolt (injector leads 2 & 6)
6	157913	Injector push in. New

	OR	
6	157913EX	Injector push in Exchange
3	149308	Injector plate
	OR	
6	RTR4096	Injector plate stainless steel
1	149595	Coupling MU
1	149005	Throttle cable
1	214888Z	Double choke cable round knob
	OR	
1	UKC5240	Double choke cable square knob
1	149604	Countershaft throttle assy
	OR	
1	RTR4211K	Modified throttle actuating kit
1	214420	Throttle pedal RHD
	OR	
1	159877	Throttle pedal LHD
1	312359XALK	Aluminium petrol tank
1	PPS6E	Petrol pipe set

IF WISHING TO USE THE LUCAS PUMP USE THE FOLLOWING COMPONENTS:

1	215299	Filter assy
1	151204X	Pipe tank to filter
1	149556	Pipe filter to pump
1	151229	Pipe PRV to filter
1	214347	Petrol pump new
	OR	
1	214347EX	Petrol pump exchange (including surcharge)
3	UKC2451	Petrol pump mount

IF USING OUR BOSCH CONVERSION, THIS COMES AS A KIT INCLUDING HOSES:

1	RTR4050K	Bosch petrol pump kit in the boot
	OR	
1	RTR4050XK	Bosch petrol pump kit outside

THE FOLLOWING PARTS ARE COMMON TO BOTH PETROL PUMP INSTALLATIONS:

1	215642	Hose pump to PRV
	OR	
1	215642SS	Hose pump to PRV (not for use with RTR4001 Bosch kit)
	OR	
1	RTR4048	Hose pump to PRV (for use with our Bosch Kit)
1	149773	'T' piece holding PRV
2	UKC2451	Mounting 'T' piece to body
1	156160	Strainer & pressure relief valve (PRV)
1	149767	Union between feed pipes
1	214890	Hose to metering unit
	OR	
1	214890SS	Hose to metering unit stainless steel

1	148947	Elbow hose return from MU
	OR	
1	217841SS	Elbow hose return from MU stainless steel
1	RTR4017K	Relay kit for pump feed
1	C41220A	Inertia cut out switch
1	C41220ACL	Inertia cut out switch clip
1	626717	Badge 'Injection'
1	214459EX	Lucas 41219 'PI' distributor exchange
